# why choose Regency?

## Beautiful Home Heating Solutions

Regency Fireplace Products was founded almost 30 years ago with a mission to produce the finest fireplace products available anywhere. Regency has home heating solutions for any room in any home.

## Regency Quality

The Regency name means quality in every way. The product is created and built in a world class manufacturing facility focused on getting every detail just right. Represented across North America by a carefully selected professional retail network; you can rely on knowledgeable dealers and installers who understand how to make our products run safely and to the optimum performance.

## Exceptional Fire

The essence of each and every Regency fireplace is the unique flame. With its dancing flames and glowing embers, realistic logs or unique Sunrise burners your Regency fire is spectacular.

## Custom Styling

By researching current trends and styles we have created tasteful options and accessories that allow you to tailor the look of our fireplace to your home. Sleek and simple or grand and glamorous... your choice.

## Cut Home Heating Bills in Half!

Turn down your furnace and zone heat with high efficiency heat just in the rooms you spend time in. This will cut your heating bills. The entire Regency Gas Fireplace Insert line produces consistent, controllable heat even during power outages.

## One Regency = One Tree

At Regency, we are committed to protecting our environment. For every Regency sold, we will plant a tree. Working with *American Forests*, the trees planted across North America will offset carbon emissions and take one more step to restore nature's balance.

## Lifetime Warranty

I am so confident in the quality workmanship, the finest materials and durable heavy-duty construction invested in each and every product, that I offer a Limited Lifetime Warranty. The Regency warranty is the best in the industry. We are absolutely sure that you will be as proud of your Regency Gas Fireplace Insert as we are – I guarantee it.

# Energy E33

Large Gas Insert

Regency E33 gas insert featuring gold louvers, brick panels and contour faceplate

With 38,000 BTU of comforting, controllable heat and a full, yellow fire, this insert is guaranteed to warm your room quickly and keep it that way. This Direct Vent Gas Insert is perfect for airtight homes or basements because the sealed firebox doesn't use internal air. All Regency gas inserts can be enjoyed from the comfort of your sofa with the Regency remote control or wall thermostat.

Shown with Excalibur surround, double doors and accent kit.

Shown with black full screen doors and brick panels.

Shown with contemporary surround, door frame and brick panels.

E33 fire package with platinum bright embers.

- Adjustable Hearth Riser
- Wall Thermostat or FireGenie® Remote
- Regency Flex Venting
- 3" to 2" air intake reducer
- LP conversion kit

# You deserve a fireplace makeover

before

Problem:

- ♦ I have a drafty wood or gas fireplace.
- ♦ I have inefficient gas logs.
- ♦ I need an updated fireplace style.

after

Solution:

- ♦ Choose the gas fireplace insert that fits your opening and install
- ♦ Voila! Updated fire, updated fireplace style, and much lower heating bill.

## comfort controls

### FireGenie® Remote Control

The FireGenie offers heat control at the touch of a button. Set the time and temperature so that your fire warms your home automatically.

### Programmable Wall Thermostat

By setting a specific temperature with a Regency® wall thermostat you can maintain a constant comfort level in your home for several hours or all day long.

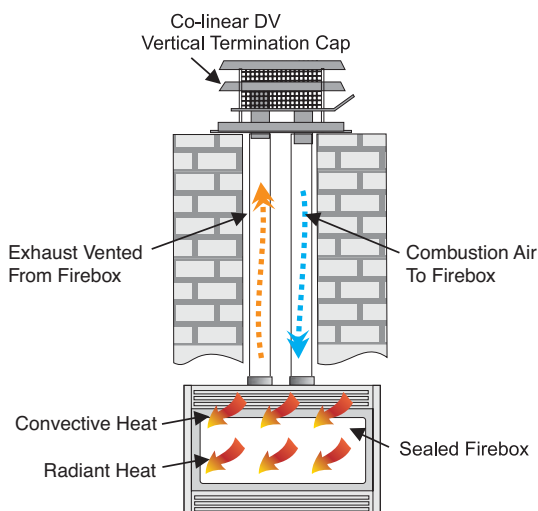

# Stop losing heat

Older fireplaces have efficiency ratings of just 5-10%. This low efficiency is due to the open combustion design that allows the heated room air to be drawn into the fire, wasting energy and cooling the rest of the house.

In contrast, a fireplace insert is an insulated, sealed system that has a high efficiency and translates into more heat output and helps you save money on your heating bill.

## what is direct vent?

A Regency® Gas Insert is a specially engineered, sealed fireplace that slips into your existing masonry or pre-fab fireplace to create a high efficiency heating system with a beautiful fire. The airtight firebox means that you will keep all of the comforting heat generated from your Regency inside your home. Even when your fireplace is turned off, you will not lose heat up the chimney.

All the air used by the fireplace for combustion comes from outside the home and is vented to outside the home maintaining indoor air quality.

You want a direct vent gas insert if you:

- live in an airtight house.
- have a basement application.
